

# DON'T! FEED THE MONSTER

PART DOO

A MONSTER LURKS...  
IN OUR WATERS.

WE THOUGHT IT WAS HARMLESS...  
WE WERE WRONG!

DO YOUR DUTY.  
PICK UP  
THE DOODIE!

**NITROGEN! PHOSPHORUS! PARASITES!**  
IT GETS IN THE WATER AND SCARY STUFF HAPPENS!

Every day, more than 13 tons of dog waste does not get properly disposed of in Lee County. Left to seep into our waters, it damages water quality and causes a host of other issues.

[DoYourDuty.org](http://DoYourDuty.org)

and [LeeCounty.com](http://LeeCounty.com) are water quality awareness initiatives of the Lee County Department of Natural Resources.
